Section 5. Fire fighting measures

Extinguishing media:	Dry sand,Carbon dioxide,Dry chemical powder,Metal fire powder. Do not use water.
Fire fighting:	Contact with water may liberate flammable gases. Remove containers to safe place if possible. Self-contained breathing apparatus and full protective clothing should be used, if the material is involved in fire.

Section 6. Accidental release measures

Personal Precautions:	Workers should use protective wears to prevent contact with the spilt adhesive and inhalation of its vapor/ dust/ fume.
Environmental hazard precautions:	Shut off leak if without risk. Prevent flow out to river, etc. so as not to badly affect.
Method for containment and cleaning up:	Eliminate all sources of ignition. Indoor leakage: Ventilate as much as possible until the cleaning is completed. Outdoor leakage: Work from the windward and evacuate the leeward crowd. Cover with dry earth, sand or other non-combustible material, and gather up, pack in closed container as much as possible. Carefully collect remnant and move to a safe place. Do not get water inside containers.

Section 7. Handling and storage**Precautions to be taken in handling:**

Safe handling:	Handle the material in a dry inert gas atmosphere, utilizing glove bag or glove box. Keep away from moisture when handling. Keep container or bottle tightly closed when not in use. Handling worker wears suitable protective clothing. Keep away from heat, sparks and naked flame.
