In case of fire, the product may liberate toxic gases/ fume.

Self-contained breathing apparatus and full protective clothing should be used, if the material is involved in fire.

---

### Section 6. Accidental release measures

#### Personal Precautions:

Workers should use protective wears to prevent contact with the spilt adhesive and inhalation of its vapor/dusts.

#### Environmental hazard precautions:

Shut off leak if without risk.  
Prevent flow out to river, etc. so as not to badly affect.

#### Method for containment and cleaning up:

Remove combustible materials and all sources of ignition.  
Indoor leakage: Ventilate as much as possible until the cleaning is completed.  
Outdoor leakage: Work from the windward and evacuate the leeward crowd.  
Gather up, pack in closed DOT-approved waste container as much as possible.  
Carefully collect remnant and move to a safe place.

---

### Section 7. Handling and storage

#### Precautions to be taken in handling:

Safe handling: Use protective wears and local ventilation equipment, if inhalation or skin contact is foreseen.

Avoid prolonged or repeated exposure.

#### Precautions to be taken in storage:

General precautions: Store the material in a sealed container.

Store in a cool, dry, well ventilated and dark place away from incompatible materials.
