

SAFETY DATA SHEET

1. Chemical Product and Company Identification

ProductName CeH3 (Powder)

Reference NO. CEI11PAG-001

Creation Date 2026/05/26

Company information Name : Kojundo Chemical Laboratory Co.,Ltd.
Address : 5-1-28, Chiyoda, Sakado , Saitama, 350-0284, Japan
Name of Section : Quality Assurance Dept.
TEL : +81-49-284-1511
FAX : +81-49-284-1351

Product Use For research purposes

Restriction of use Seek expert judgment when using the product for applications other than those recommended

2. Hazards identification

[GHS CLASSIFICATION]

PHYSICAL HAZARDS

Pyrophoric solids : Category1

Substances and mixtures which, in contact with water, emit flammable gases : Category2

HEALTH HAZARDS

Not Classification criteria.

ENVIRONMENTAL HAZARDS

Not Classification criteria.

[GHS LABEL ELEMENTS]

Pictogram

Signal Word : Danger

Hazard Statement : Catches fire spontaneously if exposed to air(H250)
: In contact with water releases flammable gas(H261)

Precautionary Statement

Safety measures : Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.(P210)
: Do not allow contact with air.(P222)
: Do not allow contact with water.(P223)
: Keep container tightly closed.(P233)
: Wear protective gloves/protective clothing/eye protection/face protection.(P280)
: Handle under inert gas. Protect from moisture.(P231+P232)

First aid measures : IF ON SKIN: Brush off loose particles from skin. Immerse in cool water or wrap in wet bandages.(P302+P335+P334)

: In case of fire: Use appropriate media to extinguish.
(P370+P378)

Storage : Store in a dry place. Store in a closed container.(P402+P404)

Disposal : Dispose of contents/container in accordance with
local/regional/national/international regulation.(P501)

3. Composition/information on ingredients

Classification of the substance or mixture : Substance

Chemical name	Concentration(%)	CAS RN®
Cerium trihydride	100.00	13864-02-3

4. First aid measures

- Inhalation : Remove the exposed person immediately and provide fresh air.
Get medical attention.
- Skin contact : Promptly flush contaminated skin with soap or mild detergent and water.
Contact Dermatologist if irritation continues.
- Eye contact : Rinse cautiously with water for 15 minutes.Get medical attention from an ophthalmologist.
When washing your eyes, hold your eyelids open with your fingers to allow water to reach every corner of your eyeballs and eyelids.
- Ingestion : Rinse mouth and throat with water. Get medical attention immediately.
- Necessary precautions for protection of person performing first aid measures : Rescue workers wear appropriate eye and skin protection equipment according to the situation.
- Special precautions for doctors : The doctor should carry out treatment that corresponds to the patient's symptoms.

5. Fire fighting measures

- Suitable extinguishing media : Dry sand, perlite, calcium oxide, metal fire extinguishers.
- Unsuitable extinguishing media : Water, water foam
: If there are overlapping items between “Suitable extinguishing media” and “Unsuitable extinguishing media” , the use of that extinguishing media is prohibited.
- Special hazards arising from the substance or mixture : Reacts violently with water, liberating toxic, flammable gas.
: In the case of powders, there is a risk of dust explosions due to surrounding heat or ignition sources.
- Special fire fighting procedures : Suffocate the fire with dry sand or similar materials. Remove containers to safe place if possible. Do not use water to extinguish the fire.
: Depending on the situation, withdraw from area and let fire burn.
- Special protective equipment and precautions for fire-fighters : Wear appropriate respiratory air and the protective clothing (heat resistance).

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	: Remove all ignition sources. : Workers should use protective wears to prevent contact with the spilt adhesive and inhalation of its vapor/dusts. Indoor leakage: Ventilate as much as possible until the cleaning is completed. Outdoor leakage: Work from the windward and evacuate the leeward crowd.
Environmental precautions	: Prevent flow out to river, etc. so as not to badly affect.
Methods and material for containment and cleaning up	: Shut off leak if without risk. Avoid unnecessary contacts with spills. : Gather up, pack in closed DOT-approved waste container as much as possible. Carefully collect remnant and move to a safe place.
Measures to prevent secondary disasters	: Prevent leakage into sewer, rivers and etc., and take measures to prevent environmental pollution.

7. Handling and storage

Handling	
Technical measures	: Handle in an inert gas atmosphere. This product has the properties of a "water-sensitive substance and/or spontaneously combustible substance," or similar characteristics. It may react with moisture in the air to produce flammable gas, or ignite upon contact with oxygen in the air.
Precautions for safe handling	: Air and moisture sensitive. Light sensitive. Keep away from heat, sparks and naked flame. Electrically ground all equipment when handling this material and use only non-sparking tools. Make the electrical equipment explosion-proof.
Avoid contact	: Use protective wears and local ventilation equipment, if inhalation or skin contact is foreseen. Avoid prolonged or repeated exposure.
Hygiene measures	: Do not eat, drink or smoke when using this product.
Storage	
Safe storage conditions	: Store the material in a sealed container. Store in a cool, dry, well ventilated and dark place away from incompatible materials. : Keep away from any heat, direct sunlight, sparks, and flames. : Keep away from incompatible materials. : Keep away from moisture and maintain the state before opening (such as storing in inert gas or in mineral oil). : Store molded products such as targets in an unopened condition.
Safe container packaging materials	: No information available

8. Exposure controls / Personal protection

Control parameters

Chemical name	ACGIH	OSHA
Cerium trihydride	-	-

Equipment	: Install the appropriate general ventilation equipment, local exhaust ventilation in the workplace.
Personal protection	
Respiratory protection	: Wear appropriate NIOSH/MSHA-approved respirator.

Hand protection	: Wear appropriate NIOSH/MSHA-approved impervious gloves.
Eye and face protection	: Wear appropriate NIOSH/MSHA-approved safety goggles.
Skin and body protection	: Wear appropriate NIOSH/MSHA-approved impervious protective wear, protective boots.
Special precautions	: Regularly check your protective gear. : The notes for the table are as follows. D: Dust, M: Mist, F: Fumes, I: Inhalable particles, R: Respirable particles, IFV: Inhalable particles and vapors, T: Total dust, V: Vapors, C: Ceiling limit

9. Physical and chemical properties

Physical state	: Solid
Color	: Black
Odour	: No information available
Melting point/Freezing point	: No information available
Boiling point, initial boiling point and boiling range	: No information available
Flammability	: Combustible
Range of explosion (lower bound - upper bound)	: No information available
Flash point	: No information available
Autoignition temperature	: No information available
Decomposition temperature	: No information available
pH	: No information available
Kinematic viscosity	: No information available
Solubility	: Ignition(Reacts with water to produce flammable gases.)
Partition coefficient (n-octanol/water)	: No information available
Vapor pressure	: No information available
Density/Specific gravity	: 5.5g/cm ³
Relative vapor density	: No information available
Particle characteristics	: No information available
Other	: F.W. : 143.1 Oxidizing : None

10. Stability and reactivity

Reactivity	: Decomposes by reacting with moisture in the atmosphere.
Chemical stability	: Stable in closed container under dry inert gas (at room temperature).
Possibility of hazardous reactions	: There is a risk of fire or explosion due to contact with acid, alcohol, oxidant, water.
Conditions to avoid	: Keep away from direct sunlight. Store in a cool, dark place. : High temperature, heat, ignition source. : Humidity, moisture.
Incompatible materials	: Water : Oxygen, oxidizing agents, acids
Hazardous decomposition products	: No information available

11. Toxicological information

Acute toxicity(oral)	No information available
----------------------	--------------------------

Acute toxicity(dermal)
No information available

Acute toxicity(inhalation:gases)
No information available

Acute toxicity(inhalation:vapours)
No information available

Acute toxicity(inhalation:dusts and mists)
No information available

Skin corrosion/Skin irritation
No information available

Serious eye damage/Eye Irritation
No information available

Respiratory sensitizer
No information available

Skin sensitizer
No information available

Germ cell mutagenicity
No information available

Carcinogenicity
No information available

Toxic to reproduction/Effects on or via lactation
No information available

Specific target organ toxicity(single exposure)
No information available

Specific target organ toxicity(repeated exposure)
No information available

Aspiration hazard
No information available

12. Ecological information

Hazard to the aquatic environment (acute)
No information available

Hazard to the aquatic environment (chronic)
No information available

Hazardous to the ozone layer
No information available

Ecotoxicity/Fish toxicity
No information available

Ecotoxicity/ Invertebrate toxicity
No information available

Ecotoxicity/ Algal toxicity
No information available

Persistence and degradability
No information available

Bioaccumulative potential
No information available

Mobility in soil
No information available

13. Disposal considerations

Remained waste	: Discard in accordance with the standards of the local government and relevant legislation.
A polluted container and packing	: When disposing of empty containers, empty containers are processed in accordance with the standards of the local government as well as the related laws and regulations and waste disposal method after contents are completely removed.

14. Transport information

UN number	: 1409
Guideline Number	: 138
Shipping name	: METAL HYDRIDES, WATER-REACTIVE, N.O.S.
UN Class	: Class4 Flammable solids; substances liable to spontaneous combustion; substances which, on contact with water, emit flammable gases
Packing group	: I
Subsidiary risk(s)	: -
MARINE POLLUTANT	: Not applicable
Transport in bulk according to MARPOL 73/78,Annex II ,and the IBC code	: Not applicable
Special safety measures for transport or means of transport	: Follow "7. Handling and storage" : Check no leak of container, handle without overturning, falling and damaging,then reliably prevent from cargo shift.
Domestic regulations	
Ground transport	: Follow the transportation method specified in the Fire Service Law and the Industrial Safety and Health Law.
Marine transport	: Follow the transportation method specified in the Ship Safety Law.
Air transport	: Follow the transportation method specified in the Aviation Law.

15. Regulatory information

Follow relevant national and local regulations.

16. Other information

This " Safety Data Sheet(SDS)" is for provision of information, and it does not represent a guarantee the properties or safeties of the product.

Since not all materials and literature have been investigated, information may be omitted, and changes may occur in the content due to the discovery of new findings or corrections of previous theories.

The information contained herein is based on information in our possession, but we do not guarantee the completeness of the information.

It is subject to revision based on changes in laws and regulations and new findings.

When using this information for important decisions, we recommend that you carefully review the source of the information or verify it through testing.

Values of ingredients, content, physicochemical properties, etc., are not quality assurance values.

Prior to use, please investigate the laws and regulations of the organization, area and country where the product is to be used.

The information is intended to ordinary usage, in case of special handling, sufficient care should be taken.

Special Notes (displayed only if applicable)
