

## SAFETY DATA SHEET

### 1. Chemical Product and Company Identification

ProductName Pbl2 (anhydrous, Code #:PBH23XB)

Reference NO. PBH15XAG-001

Creation Date 2026/03/26

Company Name : Kojundo Chemical Laboratory Co.,Ltd.  
 information Address : 5-1-28, Chiyoda, Sakado , Saitama, 350-0284, Japan  
 Name of Section : Quality Assurance Dept.  
 TEL : +81-49-284-1511  
 FAX : +81-49-284-1351

Product Use For research purposes

Restriction of use Seek expert judgment when using the product for applications other than those recommended

### 2. Hazards identification

#### [GHS CLASSIFICATION]

##### PHYSICAL HAZARDS

Not Classification criteria.

##### HEALTH HAZARDS

Carcinogenicity : Category2  
 Reproductive toxicity : Category1A  
 Specific target organ toxicity(single exposure) : Category1 (Blood,Nervous system,Kidney)  
 Specific target organ toxicity(repeated exposure) : Category1 (Blood,Nervous system,Kidney)

##### ENVIRONMENTAL HAZARDS

Not Classification criteria.

#### [GHS LABEL ELEMENTS]

Pictogram

Signal Word : Danger

Hazard Statement : Suspected of causing cancer(H351)  
 : May damage fertility or the unborn child(H360)  
 : Causes damage to organs (Blood,Nervous system,Kidney) (H370)  
 : Causes damage to organs (Blood,Nervous system,Kidney) (H372)

Precautionary Statement

Safety measures : Obtain special instructions before use.(P201)  
 : Do not handle until all safety precautions have been read and understood.(P202)  
 : Do not breathe dust/fume/gas/mist/vapours/spray.(P260)

- : Wash the competent authority to specify parts of the body to be washed after handling. thoroughly after handling.(P264)
- : Do not eat, drink or smoke when using this product.(P270)
- : Wear protective gloves/protective clothing/eye protection/face protection.(P280)
- First aid measures : Get medical advice/attention if you feel unwell.(P314)
- : Specific treatment.(P321)
- : IF exposed or concerned: Call a POISON CENTER/doctor(P308+P311)
- : IF exposed or concerned: Get medical advice/ attention. (P308+P313)
- Storage : Store locked up.(P405)
- Disposal : Dispose of contents/container in accordance with local/regional/national/international regulation.(P501)

### 3. Composition/information on ingredients

Classification of the substance or mixture : Substance

Chemical name	Concentration(%)	CAS RN®
Lead diiodide	100.00	10101-63-0

### 4. First aid measures

- Inhalation : Remove the exposed person immediately and provide fresh air. Get medical attention.
- Skin contact : Promptly flush contaminated skin with soap or mild detergent and water. Contact Dermatologist if irritation continues.
- Eye contact : Rinse cautiously with water for 15 minutes.Get medical attention from an ophthalmologist. When washing your eyes, hold your eyelids open with your fingers to allow water to reach every corner of your eyeballs and eyelids.
- Ingestion : Rinse mouth and throat with water. Get medical attention immediately.
- Necessary precautions for protection of person performing first aid measures : Rescue workers wear appropriate eye and skin protection equipment according to the situation.
- Special precautions for doctors : The doctor should carry out treatment that corresponds to the patient's symptoms.

### 5. Fire fighting measures

- Suitable extinguishing media : Use media appropriate for surrounding fire.
- Unsuitable extinguishing media : If there are overlapping items between “Suitable extinguishing media” and “Unsuitable extinguishing media” , the use of that extinguishing media is prohibited.
- Special hazards arising from the substance or mixture : In the case of powders, there is a risk of dust explosions due to surrounding heat or ignition sources.
- Special protective equipment and precautions for fire-fighters : Wear appropriate respiratory air and the protective clothing (heat resistance).

## 6. Accidental release measures

- Personal precautions, protective equipment and emergency procedures : Remove all ignition sources.
- : Workers should use protective wears to prevent contact with the spilt adhesive and inhalation of its vapor/dusts.  
Indoor leakage: Ventilate as much as possible until the cleaning is completed.  
Outdoor leakage: Work from the windward and evacuate the leeward crowd.
- Environmental precautions : Prevent flow out to river, etc. so as not to badly affect.
- Methods and material for containment and cleaning up : Shut off leak if without risk.  
Avoid unnecessary contacts with spills.
- : Gather up, pack in closed DOT-approved waste container as much as possible.  
Carefully collect remnant and move to a safe place.
- Measures to prevent secondary disasters : Prevent leakage into sewer, rivers and etc., and take measures to prevent environmental pollution.

## 7. Handling and storage

- Handling
- Technical measures : No information available
- Precautions for safe handling : No information available
- Avoid contact : Use protective wears and local ventilation equipment, if inhalation or skin contact is foreseen.  
Avoid prolonged or repeated exposure.
- Hygiene measures : Do not eat, drink or smoke when using this product.
- Storage
- Safe storage conditions : Store the material in a sealed container.  
Store in a cool, dry, well ventilated and dark place away from incompatible materials.
- : Store in a locked designated storage area.
- : Store molded products such as targets in an unopened condition.
- : Store in a light-blocking container.
- Safe container packaging materials : No information available

## 8. Exposure controls / Personal protection

### Control parameters

Chemical name	ACGIH	OSHA
Lead diiodide	TWA:0.05mg/m <sup>3</sup> TWA:as Pb	TWA:0.05mg/m <sup>3</sup> TWA:as Pb

- Equipment : Install the appropriate general ventilation equipment, local exhaust ventilation in the workplace.
- Personal protection
- Respiratory protection : Wear appropriate NIOSH/MSHA-approved respirator.
- Hand protection : Wear appropriate NIOSH/MSHA-approved impervious gloves.
- Eye and face protection : Wear appropriate NIOSH/MSHA-approved safety goggles.
- Skin and body protection : Wear appropriate NIOSH/MSHA-approved impervious protective wear, protective boots.

Special precautions : Regularly check your protective gear.  
 : The notes for the table are as follows.  
 D: Dust, M: Mist, F: Fumes, I: Inhalable particles, R:  
 Respirable particles, IFV: Inhalable particles and vapors, T:  
 Total dust, V: Vapors, C: Ceiling limit

## 9. Physical and chemical properties

Physical state : Solid  
 Color : Yellow  
 Odour : No information available  
 Melting point/Freezing point : 402°C  
 Boiling point, initial boiling point and boiling range : 954°C  
 Flammability : Non-combustible  
 Range of explosion (lower bound - upper bound) : No information available  
 Flash point : No information available  
 Autoignition temperature : No information available  
 Decomposition temperature : No information available  
 pH : No information available  
 Kinematic viscosity : No information available  
 Solubility : Slightly soluble in water(Soluble in alkaline solutions and potassium iodide aqueous solutions.)  
 Partition coefficient (n-octanol/water) : No information available  
 Vapor pressure : No information available  
 Density/Specific gravity : 6.16g/cm<sup>3</sup>  
 Relative vapor density : No information available  
 Particle characteristics : No information available  
 Other : F.W. : 461.0            Oxidizing : None

## 10. Stability and reactivity

Reactivity : No information available  
 Chemical stability : The container is sealed under a dry argon atmosphere and is stable when stored at room temperature.  
 Possibility of hazardous reactions : No information available  
 Conditions to avoid : Keep away from direct sunlight. Store in a cool, dark place.  
 Incompatible materials : No information available  
 Hazardous decomposition products : No information available

## 11. Toxicological information

Acute toxicity(oral)  
 No information available  
 Acute toxicity(dermal)  
 No information available  
 Acute toxicity(inhalation:gases)  
 No information available

Acute toxicity(inhalation:vapours)

No information available

Acute toxicity(inhalation:dusts and mists)

No information available

Skin corrosion/Skin irritation

No information available

Serious eye damage/Eye Irritation

No information available

Respiratory sensitizer

No information available

Skin sensitizer

No information available

Germ cell mutagenicity

No information available

Carcinogenicity

Lead diiodide : Category2

Toxic to reproduction/Effects on or via lactation

Lead diiodide : Category1A

Specific target organ toxicity(single exposure)

Lead diiodide : Category1 (Blood,Nervous system,Kidney)

Specific target organ toxicity(repeated exposure)

Lead diiodide : Category1 (Blood,Nervous system,Kidney)

Aspiration hazard

No information available

## 12. Ecological information

Hazard to the aquatic environment (acute)

No information available

Hazard to the aquatic environment (chronic)

No information available

Hazardous to the ozone layer

No information available

Ecotoxicity/Fish toxicity

No information available

Ecotoxicity/ Invertebrate toxicity

No information available

Ecotoxicity/ Algal toxicity

No information available

Persistence and degradability

No information available

Bioaccumulative potential

No information available

Mobility in soil

No information available

## 13. Disposal considerations

Remained waste

: Discard in accordance with the standards of the local government and relevant legislation.

A polluted container and packing

: When disposing of empty containers, empty containers are processed in accordance with the standards of the local government as well as the related laws and regulations and waste disposal method after contents are completely removed.

## 14. Transport information

UN number	: 2291
Guideline Number	: 151
Shipping name	: LEAD COMPOUND, SOLUBLE, N.O.S.
UN Class	: Class6 Toxic and infectious substances
Packing group	: III
Subsidiary risk(s)	: -
MARINE POLLUTANT	: Not applicable
Transport in bulk according to MARPOL 73/78,Annex II ,and the IBC code	: Not applicable
Special safety measures for transport or means of transport	: Follow "7. Handling and storage" : Check no leak of container, handle without overturning, falling and damaging,then reliably prevent from cargo shift.
Domestic regulations	
Ground transport	: Follow the transportation method specified in the Fire Service Law and the Industrial Safety and Health Law.
Marine transport	: Follow the transportation method specified in the Ship Safety Law.
Air transport	: Follow the transportation method specified in the Aviation Law.

## 15. Regulatory information

Follow relevant national and local regulations.

## 16. Other information

This " Safety Data Sheet(SDS)" is for provision of information, and it does not represent a guarantee the properties or safeties of the product.

Since not all materials and literature have been investigated, information may be omitted, and changes may occur in the content due to the discovery of new findings or corrections of previous theories.

The information contained herein is based on information in our possession, but we do not guarantee the completeness of the information.

It is subject to revision based on changes in laws and regulations and new findings.

When using this information for important decisions, we recommend that you carefully review the source of the information or verify it through testing.

Values of ingredients, content, physicochemical properties, etc., are not quality assurance values.

Prior to use, please investigate the laws and regulations of the organization, area and country where the product is to be used.

The information is intended to ordinary usage, in case of special handling, sufficient care should be taken.

Special Notes (displayed only if applicable)
